

PARISH UPDATE 20 SEPTEMBER 2021

Affordable Housing Needs Survey – Results Summary

Dear Parishioner,

The results from the Affordable Housing Needs Survey have been reported. A summary of these results are available on the Ellesborough Parish Council (EPC) website ellesborough.org.uk

First and foremost, EPC would like to thank all individuals for taking part in this survey. It's fantastic that so many people have engaged with this process. It must be remembered that the data collated is entirely anonymous. Hastoe Housing Association also have access to this anonymous data, and they may, or may not, use the results obtained to support a planning application for a small development of affordable homes in the parish. EPC will have no involvement in this decision making process, although we may be consulted regarding any scheme design prior to an application being submitted. The next formal opportunity EPC will have to make comment will be as a statutory consultee IF a planning application is submitted to Buckinghamshire Council. Please also be aware that all parishioners will be able to pass comment on such an application. The consultation period is normally 21 days, and we will notify you by a parish update if we understand that a planning application is to be submitted.
